PROFESSIONAL SUMMARY

Business Analyst with 3.5+ years leading end-to-end business analysis from problem identification and requirements gathering to solution evaluation and post-production delivery. Proven ability to translate complex business needs into clear user stories, workflows, and detailed product requirements for cross-functional teams including Engineering, UX, QA, and Data. Experienced in product backlog management, sprint prioritization, and contributing to product strategy and roadmap definition. Demonstrates strong ownership, accountability, and stakeholder communication throughout the full delivery lifecycle.

EXPERIENCE

Creative IT India

May 2022 – Present

Business Analyst

Project: Child Care Management System

Client: State Government – Alabama, USA

Jun 2023 – Present

Client: State Government – Oregon, USA

Aug 2025 – Present

- Led end-to-end business analysis across the full delivery lifecycle owning problem identification, requirements gathering, documentation, and solution evaluation for a government-grade digital case management portal serving US state childcare programs.
- Translated complex business and regulatory needs into 700+ clear user stories, detailed workflows, and product requirements, maintaining a 95%+ on-time delivery rate and first-time stakeholder approval on 90% of BRDs across Agile sprints.
- Managed product backlog and sprint prioritization across 15 sprints using Azure DevOps, executing 400+ production-grade user stories with zero production rollbacks and no emergency post-deployment fixes.
- Collaborated cross-functionally with Engineering, UX, QA, Data, and compliance teams facilitating 20+ discovery sessions that achieved 100% regulatory approval without revision cycles and establishing a reusable requirements framework.
- Contributed to product strategy and roadmap definition by documenting 15 enhancement opportunities from UAT findings and prioritizing them into subsequent release cycles, ensuring alignment between product vision and delivery goals.
- Engineered 20+ BPMN workflows and UI mock-ups that served as the single source of truth for development, reducing mid-sprint clarification requests by ~50% and enabling teams to begin implementation within 48 hours of sprint kick-off.
- Built executive dashboards consolidating SoW, backlog health, and release tracking, enabling 15+ stakeholders to access delivery insights on demand cutting ad-hoc status meetings by 60% and accelerating prioritization decisions.
- Executed UAT across 150+ test scenarios, identifying 45 pre-production defects and preventing costly post-launch remediation through structured validation and documentation.

PROJECTS & ACHIEVEMENTS

BA Capacity Tracker

Feb 2026

Product Designer & Developer

- Conceptualized and architected a capacity management system enabling BA teams to track workload allocation and optimize resource distribution across concurrent projects.
- Built a Node.js/Express backend with JWT authentication, SQLite database, and RESTful APIs; developed a responsive frontend with real-time calculations, interactive dashboards, and Chart.js visualizations.
- Implemented role-based access control (RBAC) for manager and team-member personas

Creative IT India
Star Performer Award

Apr 2025 – Jun 2025

- Recognized for driving requirement clarity during UAT phase, resolving open feedback loops that unblocked a critical release milestone.
- Delivered 100+ work items user stories, open issues, and test scripts within a single quarter, maintaining zero backlog overflow.

Product Teardown Cohort – HDFC Bank App
Competitor & UX Researcher

Mar 2024

- Led accessibility-focused product teardown for HDFC Bank's mobile app, conducting primary research with ophthalmologists to map pain points experienced by visually impaired users in digital banking.
- Proposed inclusive design solutions leveraging ALAN AI for intent-driven voice navigation, haptic/audio signifiers, and a 'Draw to Enter' authentication method, reducing cognitive load and improving usability across persona groups.

NMIMS University Marathon
Event Organizer

Oct 2018

- Organized NMIMS University's inaugural marathon at Super Corridor, drawing 400+ participants from across India and establishing a repeatable event framework adopted in subsequent years.

EDUCATION

Narsee Monjee Institute of Management Studies
MBA – Finance | GPA: 3.0 / 4.0

Jun 2021 – May 2022

Narsee Monjee Institute of Management Studies
B.Tech – Computer Engineering | GPA: 3.0 / 4.0

Aug 2017 – May 2021

CERTIFICATIONS

- Certified CMMI Practitioner – CMMI Institute

SKILLS

Product & Business Analysis: Requirements Elicitation, User Stories, BRD Documentation, RFP/RFI Drafting, Regression Testing, Product Road mapping

Agile & Project Management: Azure DevOps, Sprint Planning, RTM Maintenance, Stakeholder Dashboards, Backlog Grooming

Process Modelling & UX: Figma, BPMN Diagrams, Wireframing, Flowcharting, Prototyping

Data & Reporting: SQL, Power BI, MS Excel (Pivot Tables, VLOOKUP, Dashboards)

Collaboration & Delivery: Cross-functional Team Coordination, UAT Facilitation, Client Communication, Stakeholder Management
